Professional Summary

Full Stack Developer (MERN) and ServiceNow Developer with hands-on experience building scalable web applications, RESTful APIs, and ITSM workflows. Proficient in React.js, Node.js, Express.js, MongoDB, and ServiceNow platform customization with experience in Service Portal, Record Producers, and REST integrations.

Education

Bachelor of Technology in Computer Science and Engineering [2021-2025] **CGPA-(7.65/10)**
IIMT College of Engineering

Experience

Servicenow Developer Intern – Bangmetric LLC| Link July 2025 -Oct 2025

- Developed and customized server-side logic in ServiceNow using JavaScript and Glide APIs.
- Implemented REST API integrations between ServiceNow and external systems for secure data exchange.
- Worked on Incident, Problem, and Change Management using Business Rules and Script Includes.
- Worked with Service Portal components and data flow while handling ITSM use cases.
- Worked across the Software Development Life Cycle (SDLC), including requirements understanding, development, testing, debugging, and deployment support.

Full Stack Developer Intern – SoftApper Tech Solutions| Link Sep 2024 -Dec 2024

- Built full-stack features using React.js, Node.js, Express.js, and MongoDB.
- Designed RESTful APIs supporting authentication, search, and filtering.
- Integrated frontend components with backend services for seamless data flow.
- Implemented backend logic using Express middleware and MongoDB schemas for data validation.

Projects

Voyager | Github | Live

- Developed a MERN stack travel platform using React.js, Node.js, Express.js, and MongoDB.
- Implemented secure authentication, booking management, and itinerary planning.
- Designed responsive UI using Tailwind CSS.

Food Delivery App| Github | Live

- Developed a MERN stack food delivery platform with separate user, admin, and backend modules.
- Implemented authentication, cart management, food listing, order placement, and payment verification workflows.
- Built responsive user and admin interfaces for browsing dishes, managing menu items, and tracking orders.

Movie App| React Native(Expo), Nativewind, NativeWind

- Developed a mobile movie application using React Native and Expo, integrating external APIs to fetch and display trending and searchable movies.
- Designed a responsive and modern UI using Tailwind (NativeWind) with optimized component structure.
- Integrated backend services using Appwrite for data handling and enhanced application scalability.

Technical Skills

Frontend: React.js, React Native, Redux, JavaScript (ES6+), HTML5, CSS3, Tailwind CSS, Bootstrap
Backend: Node.js, Express.js, RESTful APIs
Databases: MySQL, MongoDB
ServiceNow: ITSM, Glide API, Business Rules, Client Scripts, Script Includes, REST Integrations
Tools: Git, Postman, NPM, VS Code, IntelliJ, Eclipse
Concepts: Data Structures, OOP, SDLC, API Design, Authentication (JWT), MVC Architecture
